I want to say that I used to be a fan of the Macintosh computer and its operating system. I have since found out that the MS OS is just as good as Mac OS and I have been changing over for about two years. I don't think it is right for the government to tell me what to use on my computer for software. Microsoft is a fantastic company that earns its money and should be allowed to stay in business doing whatever it can to benefit us, the consumers of computer products.
